A complete range for any architectural and design need

The large sizes offer an aesthetic and compositional potential capable of interpreting the essence of each project: from wall and floor coverings to furnishing elements (bathroom or kitchen counters, worktops, washbasins, and tables) for residential and commercial environments, with both indoor and outdoor applications.

I grandi formati offrono potenzialità estetiche e compositive capaci di interpretare l'essenza di ogni progetto: dal rivestimento di pareti e pavimenti agli elementi di arredo (top per il bagno o la cucina, piani lavoro, lavabi e tavoli) per ambienti residenziali e commerciali, con applicazioni sia in interno che in esterno.

Les grands formats offrent des potentialités esthétiques et de composition capables d'interpréter l'essence de chaque projet : du revêtement des sols et murs jusqu'aux éléments d'ameublement (top de cuisine ou de salle de bains, plans de travail, tables et lavabos) pour des espaces résidentiels et commerciaux, et des applications d'intérieur et d'extérieur.

Großformate besitzen hinsichtlich Optik und Kompositionen ein Potenzial, mit dem sich jedes Projekt perfekt interpretieren lässt:
Vom Wand- oder Bodenbelag bis zu den Einrichtungselementen (Deckplatten für Bad oder Küche, Arbeitsplatten, Waschbecken und Tisch).
In Wohn- oder Gewerberäumen, innen wie außen.

Los grandes formatos ofrecen un potencial estético y compositivo capaz de interpretar la esencia de cada proyecto: desde revestimientos de paredes y pavimentos hasta elementos de mobiliario (encimeras de baño o cocina, lavabos y mesas) para ambientes residenciales y comerciales, con aplicaciones tanto en interiores como en exteriores.

Большие форматы обладают огромным эстетическим и композиционным потенциалом: ими можно покрывать не только полы и стены, но и множество предметов обстановки (кухонные столешницы и фартуки, умывальники ванных комнатах, столы и т.д.); их можно укладывать в жилых и коммерческих пространствах, внутри помещений и на улице.

Potential applications

FLOOR

Both 6 mm thick and 9 mm thick formats can be used on the floor in all residential and commercial areas that are not subject to exceptional loads.

For floors subjected to heavy loads or the transit of hard-wheeled trolleys, the use of 9 mm thick versions is recommended.

A pavimento si possono utilizzare sia i formati a spessore 6 mm che quelli a spessore 9 mm in tutti gli ambiti residenziali e commerciali che non prevedono carichi eccezionali; per i pavimenti su cui si prevede il passaggio di carichi puntuali pesanti o il transito di carrelli a ruote dure, è consigliato l'utilizzo di formati a spessore 9 mm.

Pour le sol, il est possible d'utiliser soit les formats de 6 mm d'épaisseur que ceux de 9 mm d'épaisseur, ceci dans tous les espaces résidentiels et commerciaux qui ne prévoient pas de charges exceptionnelles ; en cas de sols soumis au passage de charges ponctuelles lourdes ou au transit de chariots à roues dures, nous conseillons l'utilisation de formats de 9 mm d'épaisseur.

Am Boden können sowohl die 6 als auch die 9 mm starken Formate verlegt werden, in allen Wohn- und Gewerberäumen, die keinen übermäßigen Belastungen ausgesetzt sind. Für Böden, die mit konzentrierten Lasten schwer belastet oder mit Hartgummirädern bereiften Wagen befahren werden, sollten 9 mm starke Formate verwendet werden.

En pavimento se pueden utilizar tanto los formatos de 6 como de 9 mm de espesor en todos los ámbitos residenciales y comerciales que no suponen cargas excepcionales; para aquellos pavimentos que en cambio sí prevén el paso de cargas puntuales pesadas o el tránsito de carros con ruedas duras, se recomienda el uso de formatos de 9 mm de espesor.

Для полов подходят форматы толщиной 6 мм и 9 мм, которые можно укладывать в жилых и коммерческих пространствах, в которых полы не будут подвергаться чрезмерной эксплуатационной нагрузке. В местах, где предвидятся сосредоточенные нагрузки или перемещение тележек на жестких колесах, рекомендуется использовать форматы толщиной 9 мм.

Potential applications

WALL

For walls, height is the key element when choosing the format. Large 278 cm (109 1/2") slabs make it possible to cover most walls from floor to ceiling, reducing waste and the presence of horizontal joints. For higher walls, we recommend the 160x320 cm (63"x126") rectified format.

Per il rivestimento a parete l'altezza è l'elemento chiave per la scelta del formato. Le grandi lastre da 278 cm consentono di coprire l'altezza della maggior parte dei soffitti, riducendo lo sfrido e la presenza delle fughe orizzontali. Per pareti più alte, si consiglia il formato 160x320 cm rettificato.

Pour le revêtement mural, la hauteur est l'élément-clé pour le choix du format. Les grandes plaques de 278 cm permettent de couvrir la hauteur de la plupart des plafonds, en réduisant les rebuts de découpe et la présence des joints horizontaux. Pour des murs plus hauts, nous conseillons le format 160x320 cm rectifié.

Bei Wandbelägen hängt die Wahl des Formats vor allem von der Höhe ab. Die großen, 278 cm hohen Platten erlauben in den meisten Fällen die raumhohe Verlegung bis zur Decke, wobei kaum Schnittabfälle oder waagerechte Fugen entstehen. Für höhere Wände empfiehlt sich das rektifizierte Format 160x320 cm.

Para el revestimiento de pared, la altura es el elemento clave en la elección del formato. Las grandes placas de 278 cm permiten cubrir la altura de la mayoría de los techos, reduciendo desperdicios y la presencia de juntas horizontales. Para paredes más altas, recomendamos el formato rectificado de 160x320 cm.

Выбор настенного формата зависит от высоты потолка. Большие плиты длиной 278 см позволяют достичь высоты большинства потолков без горизонтальных швов и с минимальным количеством отходов от резки. Для более высоких стен рекомендуется ретифицированный формат 160x320 см.

FURNITURE

Porcelain tiles are perfect for making and covering furnishings. A wide range of sizes and thicknesses make it possible to keep waste to a minimum, choosing the product that optimizes the surface with respect to the shape and volume of the furnishing to be decorated. The non-rectified 162x324 cm (63 3/4" x 127 1/2") slab is the ideal solution for large kitchen counters or worktops.

Il gres porcellanato è un materiale ideale per realizzare e rivestire elementi d'arredo. Un'ampia gamma di formati e spessori permette di ridurre gli scarti, scegliendo il prodotto che ottimizza la superficie rispetto alla forma e al volume dell'elemento di arredo da realizzare. La lastra 162x324 cm non rettificata è la soluzione idonea per piani cucina o di lavoro di grandi dimensioni.

Le grès cérame est un matériau idéal pour réaliser ou habiller des éléments d'ameublement. Une vaste gamme de formats et d'épaisseurs permet de réduire les rebuts de découpe, en choisissant le produit qui optimise la surface par rapport à la forme et au volume de l'élément d'ameublement à réaliser. La plaque 162x324 cm non rectifiée est la solution parfaite pour les plans de cuisine ou pour les plans de travail de grande dimension.

Feinsteinzeug ist ein ideales Material für die Verkleidung von Einrichtungselementen. Die große Auswahl an Formaten und Stärken erlaubt es, die Schnittreste zu reduzieren, da das jeweils für die zu verkleidenden Flächen, Formen und Volumen optimale Format gewählt werden kann. Die nicht rektifizierte Platte 162x324 cm ist die geeignete Lösung für Küchenarbeitsplatten oder für große Arbeitstische im Allgemeinen.

El gres porcelánico es un material ideal para realizar y revestir elementos de decoración. Una amplia gama de formatos y espesores permiten reducir desperdicios, eligiendo el producto que optimiza la superficie con respecto a la forma y al volumen del elemento de decoración que se desea realizar. La placa no rectificada de 162x324 cm es la solución ideal para encimeras o superficies de trabajo de grandes dimensiones.

Керамогранит идеален и для отделки предметов обстановки. Широкая гамма форматов и толщин дает возможность без труда подобрать формат, который лучше всего подойдет для конкретного размера и объема предмета с вытекающей из этого минимизацией отходов от резки. Неретифицированная плита 162x324 см прекрасно подойдет для устройства кухонных столешниц или больших рабочих поверхностей.

The glossy polished finish is suitable for residential or low-traffic commercial floors, where no anti-slip performance is required, and for walls. The glossy polished surface finish, surprisingly brilliant and bright, features slight irregularities typical of natural marble.

The extraordinary brilliance and the easy cleaning of the surface are the result of in-depth research aimed at guaranteeing its durability over time. If the product is in direct contact with the outdoors, provide devices for absorbing moisture and dirt to prevent scratches.

La finitura Lappata lucida è indicata per pavimenti residenziali o commerciali poco sollecitati, laddove non siano richieste prestazioni antiscivolo, e per rivestimenti. La finitura lappata lucida offre una superficie sorprendentemente brillante e specchiante, con lievi irregolarità tipiche dei marmi naturali.

La straordinaria lucentezza e l'elevata pulibilità della superficie sono frutto di studi approfonditi e accurate ricerche tecniche volte a garantire la persistenza nel tempo. Se il prodotto è a diretto contatto con l'esterno, prevedere dei dispositivi di assorbimento dell'umidità e della sporcizia per prevenire la formazione di graffi.
